

INDEX TO VOLUME 107

Alphabetical Table of Contents of Authors

- ABRAHAMSON, WARREN G., AND MADHAV GADGIL. Growth form and reproductive effort in goldenrods (*Solidago*, Compositae), 651
- ANTONOVICS, JANIS. See HEATHER DICKINSON
- ATSATT, PETER R. Parasitic flowering plants: how did they evolve?, 502
- BAKER, WILLIAM K. See RICHARD M. ROBERTS
- BAKKEN, GEORGE S. See JAMES R. SPOTILA
- BARBEHENN, KYLE R. A comment on predator-prey species proportions, 152
- BELLA, DAVID A. See WILLIAM J. GRENNERY
- BLAYLOCK, B. G. See H. H. SHUGART, JR.
- CALOW, PETER. The relationship between fecundity, phenology, and longevity: a systems approach, 559
- CARSON, H. L. See K. Y. KANESHIRO
- CASEY, TIMOTHY M. See ROBERT J. EPTING
- CASWELL, HAL, FRANK REED, S. N. STEPHENSON, AND PATRICIA A. WERNER. Photosynthetic pathways and selective herbivory: a hypothesis, 465
- CHARLESWORTH, BRIAN. Selection in populations with overlapping generations. V. Natural selection and life histories, 303
- CHARNOV, ERIC L., AND WILLIAM M. SCHAFFER. Life-history consequences of natural selection: Cole's result revisited, 791
- CLAYTON, F. E. See K. L. KANESHIRO
- COHEN, JOEL E. Selective host mortality in a catalytic model applied to schistosomiasis, 199
- COLWELL, ROBERT K. Competition and coexistence in a simple tropical community, 737
- CROW, JAMES F. See JEFFREY A. FRELINGER
- CROWELL, KENNETH L. Experimental zoogeography: introductions of mice to small islands, 535
- CURL, HERBERT C., JR. See WILLIAM J. GRENNERY
- DAYTON, PAUL K. Two cases of resource partitioning in an intertidal community: making the right prediction for the wrong reason, 662
- DEBENEDICTUS, PAUL A. On the correlations between certain diversity indices, 295
- DICKINSON, HEATHER, AND JANIS ANTONOVICS. Theoretical considerations of sympatric divergence, 256
- DOBZHANSKY, THEODOSIUS. Is there gene exchange between *Drosophila pseudoobscura* and *Drosophila*

- phila persimilis* in their natural habitats?, 312
- DOMMÉE, B. See G. VALDEYRON
- EHRLICH, ANNE H. See PAUL R. EHRLICH
- EHRLICH, PAUL R., AND ANNE H. EHRLICH. Coevolution: heterotypic schooling in Caribbean reef fishes, 157
- EHRMAN, LEE. More on natural selection for the origin of reproductive isolation, 318
- EICKWORT, KATHLEEN R. Cannibalism and kin selection in *Labidomera clivicollis* (Coleoptera: Chrysomelidae), 452
- EOFF, MICHAEL. The influence of being cultured together on hybridization between *Drosophila melanogaster* and *Drosophila simulans*, 247
- EPTING, ROBERT J., AND TIMOTHY M. CASEY. Power output and wing disc loading in hovering hummingbirds, 761
- EWENS, W. J. Comment on Nei's letter on substitutional loads, 462
- FARRIS, JAMES S. Estimation of number of amino acid substitutions when back mutations can occur, 531
- FINDLEY, JAMES S. Phenetic packing as a measure of faunal diversity, 580
- FRELINGER, JEFFREY A., AND JAMES F. CROW. Transferrin polymorphism and Hardy-Weinberg ratios, 314
- FUTUYAMA, DOUGLAS J. Community structure and stability in constant environments, 443
- GADGIL, MADHAV. See WARREN G. ABRAHAMSON
- GATES, DAVID M. See JAMES R. SPOTILA
- GILBERT, LAWRENCE E., AND MICHAEL C. SINGER. Dispersal and gene flow in a butterfly species, 58
- GILPIN, MICHAEL E. Do hares eat lynx?, 727
- GRENNEY, WILLIAM J., DAVID A. BELLA, AND HERBERT C. CURL, JR. A theoretical approach to interspecific competition in phytoplankton communities, 405
- HEDRICK, PHILIP W. Genetic variation and the generalized frequency-dependent model, 800
- HEED, W. B. See K. Y. KANESHIRO
- HOPSON, JAMES A. Endothermy, small size, and the origin of mammalian reproduction, 446
- HUBBELL, S. P. Populations and simple food webs as energy filters. I. One-species systems, 94
- HUBBELL, S. P. Populations and simple food webs as energy filters. II. Two-species systems, 122
- JAENIKE, JOHN R. A steady state model of genetic polymorphism on islands, 793
- JANZEN, DANIEL H. Host plants as islands. II. Competition in evolutionary and contemporary time, 786
- JOHNSTON, RICHARD F., AND ROBERT K. SELANDER. Evolution in the house sparrow. III. Variation in size and sexual dimorphism in Europe and North and South America, 373
- KANESHIRO, K. Y., H. L. CARSON, F. E. CLAYTON, AND W. B. HEED. Niche separation in a pair of homosequential *Drosophila* species from the island of Hawaii, 766

- KERFOOT, W. CHARLES. See ARNOLD G. KLUGE
- KLUGE, ARNOLD G., AND W. CHARLES KERFOOT. The predictability and regularity of character divergence, 426
- KOLTIN, Y. See JUDITH STAMBERG
- KONISHI, MASAKAZU. Locatable and nonlocatable acoustic signals for barn owls, 775
- LEVIN, BRUCE R. See FRANK M. STEWART
- LEVIN, S. A. Erratum, 320
- LEVIN, S. A. See R. H. WHITTAKER
- LEWIS, HARLAN. The origin of diploid neospecies in *Clarkia*, 161
- LINHART, YAN B. Ecological and behavioral determinants of pollen dispersal in hummingbird-pollinated *Heliconia*, 511
- LOMMEN, PAUL W. See JAMES R. SPOTILA
- MAGUIRE, BASSETT, JR. Niche response structure and the analytical potentials of its relationship to the habitat, 213
- MAY, ROBERT M. On relationships among various types of population models, 46
- MAY, ROBERT M. Stability in randomly fluctuating versus deterministic environments, 621
- MORTON, EUGENE S. On the evolutionary advantages and disadvantages of fruit eating in tropical birds, 8
- MOYNIHAN, MARTIN H. Species proportions—a reply, 155
- NEI, MASATOSHI. Ewens on the substitution load, 459
- NEI, MASATOSHI, AND ARUN K. ROYCHOUDHURY. Probability of fixation of nonfunctional genes at duplicate loci, 362
- PAVLIDIS, T. The free-run period of circadian rhythms and phase response curves, 524
- PHILLIPS, O. M. The equilibrium and stability of simple marine biological systems. I. Primary nutrient consumers, 73
- PRICE, PETER W. Reproductive strategies in parasitoid wasps, 684
- REED, FRANK. See HAL CASWELL
- Reports of the Secretary, Treasurer, and Editors of The American Society of Naturalists, 731
- ROBERTS, RICHARD M., AND WILLIAM K. BAKER. Frequency distribution and linkage disequilibrium of active and null esterase isozymes in natural populations of *Drosophila montana*, 709
- ROOT, R. B. See R. H. WHITTAKER
- ROSENZWEIG, MICHAEL L. Exploitation in three trophic levels, 275
- ROTHSTEIN, STEPHEN I. The niche-variation model—is it valid?, 598
- ROTHSTEIN, STEPHEN I. Relative variation of avian morphological features: relation to the niche, 796
- ROYCHOUDHURY, ARUN K. See MASATOSHI NEI
- SCHAFFER, WILLIAM M. See ERIC L. CHARNOV
- SCHULTZ, JACK. Human values and human genetics, 585
- SELANDER, ROBERT K. See RICHARD F. JOHNSTON
- SHUGART, H. H., JR., AND B. G. BLAYLOCK. The niche-variation hypothesis: an experimental study with *Drosophila* populations, 575
- SINGER, MICHAEL C. See LAWRENCE E. GILBERT

- SMITH, ALAN P. Stratification of temperate and tropical forests, 671
- SPIELMAN, RICHARD S. Do the natives all look alike? Size and shape components of anthropometric differences among Yanomama Indian villages, 694
- SPOTILA, JAMES R., PAUL W. LOMMEN, GEORGE S. BAKKEN, AND DAVID M. GATES. A mathematical model for body temperatures of large reptiles: implications for dinosaur ecology, 391
- STAMBERG, JUDITH, AND Y. KOLTIN. The origin of specific incompatibility alleles: a deletion hypothesis, 35
- STEPHENSON, S. N., See HAL CASWELL
- STEWART, FRANK M., AND BRUCE R. LEVIN. Partitioning of resources and the outcome of interspecific competition: a model and general considerations, 171
- TERBORGH, JOHN. On the notion of favorableness in plant ecology, 481
- VALDEYRON, A. See G. VALDEYRON
- VALDEYRON, G., B. DOMMÉE, AND A. VALDEYRON. Gynodioecy: another computer simulation model, 454
- VANCE, RICHARD R. On reproductive strategies in marine benthic invertebrates, 339
- VANCE, RICHARD R. More on reproductive strategies in marine benthic invertebrates, 353
- WALLACE, BRUCE. Misinformation, fitness, and selection, 1
- WERNER, PATRICIA A. See HAL CASWELL
- WHITTAKER, R. H., S. A. LEVIN, AND R. B. ROOT. Niche, habitat, and eotope, 321
- WILLS, CHRISTOPHER. In defense of naïve pan-selectionism, 23

STATEMENT OF OWNERSHIP, MANAGEMENT AND CIRCULATION (as required by Act of August 12, 1970: Section 3685, Title 39, United States Code). 1. Title of publication: *American Naturalist*; 2. Date of filing: August 17, 1973; 3. Frequency: bi-monthly; 4. Location of known office of publication: 5801 Ellis Avenue, Chicago, Illinois 60637; 5. Location of the headquarters or principal business offices of the publishers: same address; 6. Names and addresses of publisher, editor, and managing editor: Publisher, University of Chicago Press, 5801 Ellis Avenue, Chicago, Illinois 60637; Editor, Robert Sokal, SUNY at Stony Brook, Stony Brook, New York 11720; Managing Editor, James T. O'Connor; 7. Owner: University of Chicago Press, 5801 Ellis Avenue, Chicago, Illinois 60637; 8. Known bondholders, mortgagees, and other security holders owning or holding 1 percent or more of total amount of bonds, mortgages, or other securities: none; 9. For optional completion by publishers mailing at regular rates: not applicable; 10. For completion by nonprofit organizations authorized to mail at special rates: the purpose, function, and nonprofit status for Federal income tax purposes has not changed during preceding 12 months; 11. (a) Total number of copies printed: Average number of copies each issue during preceding twelve months, 3633; Single issue nearest filing date, 3700; (b) Paid circulation: Sales through dealers and carriers, street vendors and counter sales, none; Mail subscriptions, Average number of copies each issue during preceding twelve months, 3127; Single issue nearest filing date, 3348; (c) Total paid circulation: Average number of copies each issue during preceding twelve months, 3127; Single issue nearest filing date, 3348; (d) Free distribution: Samples, complimentary, and free copies, Average number of copies each issue during preceding twelve months, 60; Single issue nearest filing date, 60; Copies distributed to news agents, but not sold, none; (e) Total distribution (sum of c and d): Average number of copies each issue during preceding twelve months, 3187; Single issue nearest filing date, 3408; (f) Office use, leftover, unaccounted, spoiled after printing: Average number of copies each issue during preceding twelve months, 446; Single issue nearest filing date, 292; (g) Total: Average number of copies each issue during preceding twelve months, 3633; Single issue nearest filing date, 3700.

I certify that the statements made by me above are correct and complete. (Signed) Jean W. Sacks, Assistant Director.
